

Sociedade Portuguesa de Doenças Metabólicas

Annual Symposium 2018

March 15-16, Porto
Hotel Porto Ribeira

Programme

Thursday, 15 March

08:00

Registration Opening

08:45

Symposium Opening - Welcome Address on behalf of the SPDM
Local organization representatives

Session I – New players in Inborn Errors of Metabolism

09:00

Metabolic adaptation as a protective strategy against infectious diseases

Miguel Soares | *Lisboa, PT*

09:30

Gut microbioma and hyperammonemia – problem or solution?

David Shen | *Philadelphia, USA*

10:00

Epigenetic changes and phenotypic variation in IEM

Joseph H. Nadeau | *Seattle, USA*

10:30 Coffee Break

Session II – Inborn Errors of Metabolism cross talk with Immune system

11:00

IEM underlying primary immunodeficiency's – an emerging field

Joris van Montfrans | *Utrecht, ND*

11:30

Impacts of free amino acids on the immune system

Thomas Vorup-Jensen | *Aarhus, DK*

Session III – New Inborn Errors of Metabolism

12:00

Blood platelets and genome sequencing to unravel unknown metabolic diseases

Kathleen Freson | *Leuven, BE*

12:30

Odyssey to a new disorder

Ron Wevers | *Nijmegen, ND*

13:00 Poster View / Lunch

Session IV – Congenital Disorders of Glycosylation

14:00

Lessons from NGS approach to CDG diagnostic

Gert Mathijs | *Leuven, BE*

14:30

Treating CDGs – always a challenge

Jaak Jaeken | *Leuven, BE*

15:00 Coffee Break

Session V – Selected Free Communications

15:30 Beginning of the Session

16:55 End of the Session

17:10 SPDM Assembleia Geral

Friday, 16 March

Session VI – Selected Free Communications

08:00-09:00

Session VII – LSD - still much to learn

09:10

Immunity and Inflammation in LSD

Brian Bigger | *Manchester, UK*

09:35

Bone growth in lysosomal storage disorders – role of autophagy and new paths for treatment

Carmine Settembre | *Naples, IT*

10:00

Bridging the age spectrum of neurodegenerative storage diseases

Barry Boland | *Cork, IR*

10:25 Coffee break

Session VIII – LSD treatment – reality and expectations

11:00

Advances in gene therapy for LSD

Brian Bigger | *Manchester, UK*

11:25

Treatment with pentosane polysulphate in patients with MPS I

Calogera Simonaro | *New York, USA*

Session IX – Selected free Communications

11:50 Beginning of the Session

12:40 End of the Session

12:45 Poster View / Lunch

IV SPDM Nutrition meeting (SPDM-GN)

Session X – Omics contribution for Inborn Errors of Metabolism

13:45

Next Generation Metabolic Screening using Qtof-MS

Ron Wevers | *Nijmegen, NL*

14:10

Omics-Based Strategies in Precision Medicine for IEM

Soumeya Bekri | *Rouen, FR*

Session XI – Inborn Errors of Metabolism nutritional and pharmacological treatment – Present and future

14:35

Vitamin and Micronutrients Metabolism – role in IEM treatment

Ana Moráis López | *Madrid, SP*

15:00

Sapropterin treatment of PKU- the Portuguese picture

SPDM work group - To be confirmed | PT

15:20

Carbaglumic acid – lessons from treating organic acidurias

Sufin Yap | *Sheffield, UK*

15:45 Coffee Break

Session XII – Selected poster Communications

16:00 – 17:00

17:00 Awards / Closing Remarks

Isabel Tavares de Almeida, SPDM President

17:30 SPDM Assembleia eleitoral
